

While China’s Regulatory Capacity is Growing, Very Few Chinese-Developed Drugs Reach Global Patients

By China and US Headquartered (HQ) companies · 2020–2025

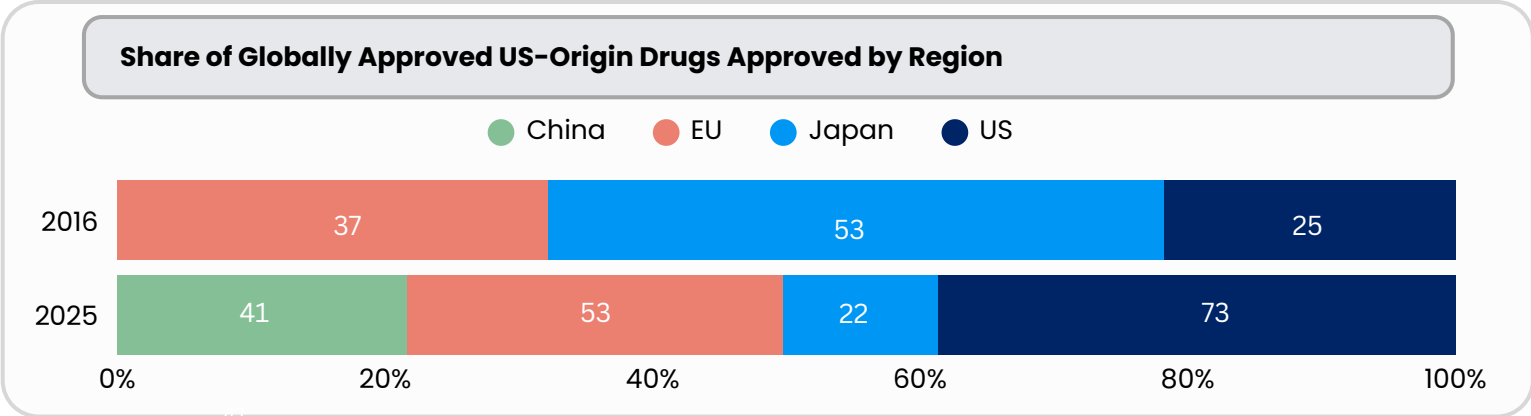

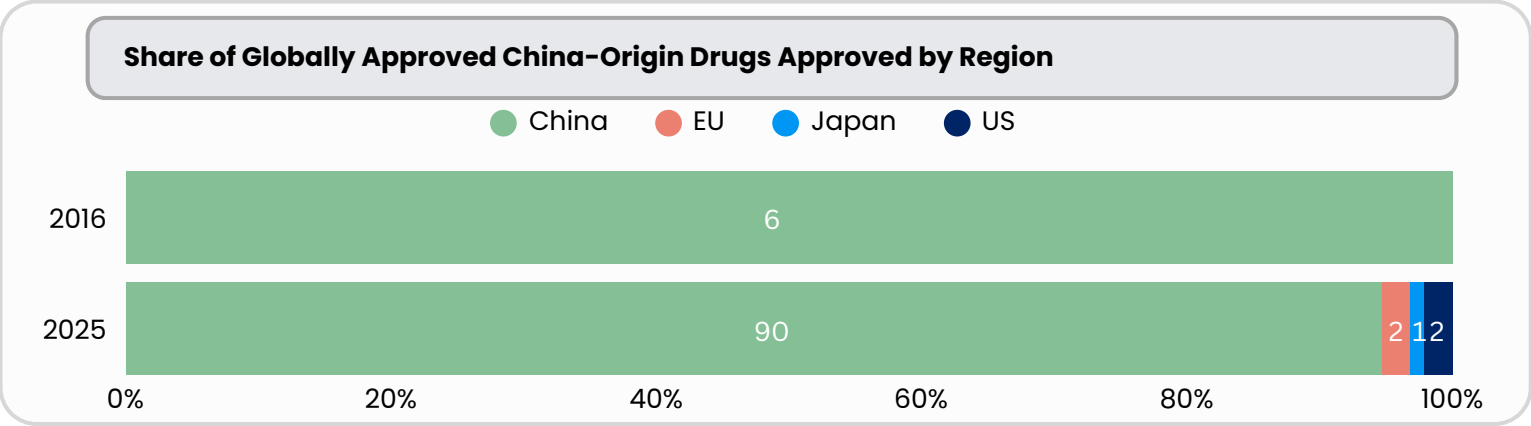

GLOBAL REACH - CHINA VS US

While almost all approved drugs developed by US HQ companies in the past 10 years are approved globally, **only 8% of approved drugs** developed by China headquartered companies are.

.....

Only 19 drugs developed by China headquartered companies in the past 10 years have been approved outside of China.

2% of China-origin drugs are FDA approved, as of 2025

22% of US-origin drugs are approved in China, as of 2025
